The background of the cover is a photograph of an outdoor handball court at night. The court is illuminated by bright overhead lights, creating a high-contrast scene. In the foreground, a player in a dark blue jersey with white floral patterns and black pants is seen from behind, facing the court. In the middle ground, another player in a light blue jersey with a rainbow-colored butterfly design on the back and black pants is also seen from behind. A third player in a white jersey is visible further back on the right. The court floor is made of light-colored square tiles, and a dark line runs down the center. The background shows the structure of the court with glowing light frames.

Introduction

Handball is a long-treasured tradition on the courts of primary schools across the country and has continued to thrive for generations. The sport has been a staple across the nation for many years but has been plagued by a lack of standardisation. The aim of this document is to establish an official baseline for the game that we all love and cherish, so that we may be able to unite under a common understanding of what makes this game so great.

The ruleset we have created aims to encourage considerate conduct to all involved parties, and as such the rules have been built upon the back of respect and fair play. We believe that without such principles, our sport is doomed to be lost to the foul behaviour of the few individuals who are happy to do whatever it takes to win (Dora). Whilst the dealing with misconduct may be seen as draconian by some, we at SUSS believe it necessary to anchor the culture of our sport firmly in the realm of dignity.

Another core principle that was influential to the conception of this rule book was the importance of promoting an environment conducive to skilful play, while still welcoming to new and returning players alike. We at SUSS believe that we have an incredibly exciting and exhilarating sport, and that we, as the governing body, have the responsibility to showcase the most thrilling plays, and the intense points our sport has to offer. Our approach to the sport aims to penalise aspects that may be unfair or uninteresting to concerning parties in order to maintain a fast-paced and engaging display of skill.

By creating these rules, SUSS hopes to settle the playground arguments which come from an inconsistent understanding of handball, so that we can spend less time on petty disputes and more time playing handball. These regulations are meant as a foundation from which our sport can flourish, so that we can help show the world what our sport has to offer. This fair, fun and exciting handball which these regulations encourage is something that we, as a sport, should celebrate.
